

# CLOUD DOUGH

This smooth textured, squishy dough is fun to make and feels so good. If it dries out overnight, you can add more shaving foam.

## Materials:

- Cornflour (approximately  $\frac{3}{4}$  of a cup)
- Shaving foam (approximately  $\frac{3}{4}$  of a cup)
- A few drops of food colouring
- Mixing bowl

In a mixing bowl, combine equal parts cornflour and shaving foam. Use hands to knead together to make a smooth dough.

Tip: If the dough feels too sticky add more cornflour. If it feels like it's crumbling add more shaving foam.

Add a few drops of food colouring to the dough and fold it in until the colour is fully combined with the Cloud Dough.
