

MAGIC REVEAL PICTURES

Is it magic or is it science? Magic reveal pictures are super fun and easy to do at home.

Materials:

- Sharpies or Felt pens
- Paper towels
- A shallow dish of water
- Scissors

Be sure to have all your materials ready.

First fold a paper towel in half, then cut the paper towel so you end up with a small square with another small square folded behind it.

With your Sharpies or Felt pens, draw separate images on each half of the paper towel. In the example, we have drawn a sunshine on one half and a face and city on the other.

Tip: Keep the image simple to start with such as a sunshine, rainbow, flower etc.

Place your paper towel into the dish of water and watch as the two images merge together.
